

Dated: 14th January 2009

I am indeed pleased to see that an initiative of IITR Heritage fund which was taken up about one and half year back at PAN-IIT Meet at Santa Clara, California, USA by the Alumni of the North America Association of IIT Roorkee has taken it roots and started growing as a fruit bearing tree. I was personally present in that meeting in which this initiative was taken up and a good number of alumni came forward to offer their services, time and donations.

I am happy to see that some scholarships have already been announced by this fund. I would like to congratulate all the alumni who have already made donations / commitments for such scholarships. I do see a great help to budding alumni (students at IIT Roorkee) in the form of scholarships, travel grants and support to some of their other projects from this noble initiative of IITR Heritage Fund. I am certain that our alumni in large numbers will come forward to join this initiative of IITR Heritage Fund and contribute in the form of services, time and donations and would make this initiative a grant success in its all dimensions.

(S.C. Saxena)
Director, IIT Roorkee
